VOLUME 42 1996

THE JOURNAL OF GENERAL AND APPLIED MICROBIOLOGY

EXECUTIVE EDITORS (1996–1998):

JUNTA SUGIYAMA (Chief) EIICHI OHTSUBO HARUO SETO
HIDEO TAKAHASHI HAJIME TOKUDA AKIRA YOKOTA

EDITORIAL BOARD MEMBERS (1996–1998):

TAKAYUKI EZAKI KENSUKE FURUKAWA KATSUMI ISONO
TAKESHI KOBAYASHI TERUYA KOMANO TAKESHI MIZUNO
TAKASHI NAKASE TOSHIO OMORI ATSUHIKO SINMYO
MASAMICHI TAKAGI AKIO TOH-E TOMOFUSA TSUCHIYA
NORIHIRO TSUKAGOSHI ISAMU YAMAGUCHI

ADVISORY BOARD MEMBERS (1996–1998):

KÔ AIDA TAKEJI HASEGAWA MOTOYOSHI HONGO
YONOSUKE IKEDA BUNJI MARUO HIUGA SAITO
GAKUZO TAMURA TOMOMICHI YANAGITA

CONTENTS

Volume 42

Number 1, February 1996

S.-O. Suh, M. Takashima, and T. Nakase: Phylogenetic study of the anamorphic basidiomycetous yeasts *Rhodotorula lactosa* and *R. minuta*, and related taxa based on 18S ribosomal DNA sequences 1

T. Nakase, M. Suzuki, M. Hamamoto, M. Takashima, T. Hatano, and S. Fukui: A taxonomic study on cellulolytic yeasts and yeast-like microorganisms isolated in Japan. II. The genus *Cryptococcus* 7

H. Harada, H. Oyaizu, and H. Ishikawa: A consideration about the origin of aphid intracellular symbiont in connection with gut bacterial flora 17

K. Dutta, G. Datta, and N. C. Verma: Effect of nitrogen starvation on DNA repair in *Saccharomyces cerevisiae* 27

J. B. Jewell and G. B. Dunphy: Antifoaming agent produced by strains of the entomopathogenic bacterium *Xenorhabdus nematophilus* and its effect on the development of the insect pathogenic nematode *Steinernema carpocapsae* DD136 39

Y.-W. Ho, M. V.-L. Wong, N. Abdullan, H. Kudo, and S. Jalaludin: Fermentation activities of some new species of anaerobic rumen fungi from Malaysia 51

F. Tesfa-Selase and R. J. Hay: Partial characterization and identification of a transferrin-like molecule of pathogenic yeast *Cryptococcus neoformans* 61

Short Communications

S. Singh, I. S. Thakur, and A. Singh: Regulation of pH homeostasis in the cyanobacterium *Hapalosiphon hybernicus West* 71

A. Goyal and S. S. Katiyar: Regulation of dextransucrase productivity of *Leuconostoc mesenteroides* NRRL B-512F by the maintenance media 81

E. C. Dell'angelica, D. Milikowski, D. A. Saenz, C. A. Stella, E. H. Ramos, J. A. Santomé, and M. R. Ermácora: A synthetic medium for the selection of yeasts able to utilize fatty acids as the sole carbon source 87

Number 2, April 1996

R. W. Ashadi, K. Shimokawa, and K. Ogawa: The mechanism of enzymatic cellulose degradation (I). Purification and some properties of cellulolytic enzymes from *Aspergillus niger* UC 93

R. W. Ashadi, K. Shimokawa, and K. Ogawa: The mechanism of enzymatic cellulose degradation (II). Mode of action of cellulose hydrolyzing enzyme from *Aspergillus niger* UC 103

M. Nakamoto, A. Ueki, and K. Ueki: Physiological properties of a sulfate-reducing bacterium isolated from municipal sewage sludge and its possible role as a syntrophic acidogen in the ecosystem 109

S. Saitoh and Y. Nishimura: Taxonomic characterization of novel aerobic bacteriochlorophyll-containing bacteria isolated from soil 121

R. Irie, Y. Fujita, and M. Kobayashi: Nucleotide sequence and gene organization of the *gerK* spore germination locus of *Bacillus subtilis* 168 141

R. Utsumi, K. Kawamoto, K. Yamazaki, M. Taniguchi, S. Yoshioka, and H. Tanabe: Characterization of the signal transduction via EvgS and EvgA in *Escherichia coli* 155
M. Morita, Y. Kan, N. Sugano, and A. Nishi: A trypsin-like serine proteinase from plasmodial membrane of *Physarum polycephalum* 163

Short Communication
S. Nikkuni, N. Kosaka, C. Suzuki, and K. Mori: Comparative sequence analysis on the 18S rRNA gene of *Aspergillus oryzae*, *A. sojae*, *A. flavus*, *A. parasiticus*, *A. niger*, *A. awamori* and *A. tamarii* 181

Number 3, June 1996

M. Takashima, S.-O. Suh, and T. Nakase: Group I introns found in nuclear small subunit ribosomal RNA genes of the ballistoconidiogenous anamorphic yeast *Bensingtonia ciliata* and *Bensingtonia yamatoana* 189
K. Ohshiro and T. Yagi: Regulation of intracellular osmotic pressure and some factors that influence the promotion of glycerol synthesis in a respiration-deficient mutant of the salt-tolerant yeast *Zygosaccharomyces rouxii* during salt stress 201
C. Wynter: Screening method for dextranases and amylodextranases from anaerobic thermophiles 213
T. Matsushima, E. Okamoto, E. Miyagawa, Y. Matsui, H. Shimizu, and K. Asano: Deacetylation of diacetoxyscirpenol to 15-acetoxyscirpenol by rumen bacteria 225
M. Tamura, E. S. Rahayu, C. Fe Cañete Gibas, and J. Sugiyama: Electrophoretic comparison of enzymes as a chemotaxonomic aid among *Aspergillus* taxa: (3) The identity of the xerophilic species *A. penicillioides* in subgenus *Aspergillus* section *Restricti* 235
B. R. Zaidi and S. H. Imam: Inoculation of microorganisms to enhance biodegradation of phenolic compounds in industrial wastewater: Isolation and identification of three-indigenous bacterial strains 249

Short Communications
F. Abe, H. Momose, M. Igarashi, T. Yaeshima, N. Ishibashi, S. Shimamura, and T. Kawashima: The Effect of administration of bifidobacteria on the intestinal flora and growth of newborn piglets 257
Y. Husaini, L. C. Rai, and N. Mallick: Nutrient uptake and its kinetics in *Nostoc linckia* in presence of aluminum and fluoride at different pH 263

Number 4, August 1996

M. Oki, M. Kakikawa, A. Taketo, and K. Kodaira: Genome structure of a *Lactobacillus* plasmid pNMO belonging to the rolling-circle type replicon 271
K. Isobe and N. Wakao: Tween-hydrolyzing esterase produced by *Acidiphilium* sp. 285
P. K. Mwesigye and J. P. Barford: Mechanism of surcrose utilisation by *Saccharomyces cerevisiae* 297
E. S. Naumova, G. I. Naumov, and M. Korhola: Use of molecular karyotyping for differentiation of species in the heterogeneous taxon *Saccharomyces exiguus* 307
M. Matsuhashi, A. N. Pankrushina, K. Endoh, H. Watanabe, H. Ohshima, M. Tobi, S. Endo, Y. Mano, M. Hyodo, T. Kaneko, S. Otani, and S. Yoshimura: *Bacillus carboniphilus* cells respond to growth-promoting physical signals from cells of homologous and heterologous bacteria 315

Short Communications

S. Bradoo, R. Gupta, and R. K. Saxena: Screening of extracellular tannase-producing fungi: Development of a rapid and simple plate assay 325

A. Ishida, N. Otsuka, S. Nagata, K. Adachi, and H. Sano: The effect of salinity stress on the accumulation of compatible solutes related to the induction of salt-tolerance in *Escherichia coli* 331

V. Udayasuriyan, A. Nakamura, H. Mori, H. Masaki, and T. Uozumi: Composition and location of *cryIA* genes in *Bacillus thuringiensis* strain FU-2-7 337

Y. Noda, I. Urakawa, K. Yoda, and M. Yamasaki: *Bacillus subtilis* TmrB protein confers resistance to tunicamycin on *Escherichia coli* 343

Y. Ohta, M. Maeda, T. Kudo, and K. Horikoshi: Isolation and characterization of solvent-tolerant bacteria which can degrade biphenyl/polychlorinated biphenyls 349

Number 5, October 1996

S. Chitra, G. Sekaran, and G. Chandrakasan: Immobilized mutant strain of *Pseudomonas pictorum* for the degradation of phenol in wastewater 355

W. Dong, Q. Yinbo, and G. Peiji: Transglycosylation of extracellular β-glucosidase of *Trichoderma pseudokoningii* S38 and its function in regulation of cellulase biosynthesis 363

M. Ikemoto and Y. Ota: Production of two types of non-specific lipases by *Geotrichum* sp. FO 274 A: A fish oil-assimilating strain 371

M. Sato, J. Shibato, T. Aida, M. Asayama, and M. Shirai: Light-responsive and rhythmic gene expression of *psbA2* in cyanobacterium *Microcystis aeruginosa* K-81 381

R. A. Paggi and J. P. Fay: Effect of short-chain fatty acids on growth of the ruminal bacterium *Streptococcus bovis* 393

K. Kobayashi, K. Katayama-Hirayama, and S. Tobita: Isolation and characterization of microorganisms that degrade 4-chlorobiphenyl to 4-chlorobenzoic acid 401

D. Ober, D. Tholl, W. Martin, and T. Hartmann: Homospermidine synthase of *Rhodopseudomonas viridis*: Substrate specificity and effects of the heterologously expressed enzyme on polyamine metabolism of *Escherichia coli* 411

M. Takashima and T. Nakase: A phylogenetic study of the genus *Tilletiopsis*, *Tilletiaria anomala* and related taxa based on the small subunit ribosomal DNA sequences 421

Short Communications

K. Hamana and N. Kishimoto: Polyamine distribution patterns in C_1 compound-utilizing eubacteria and acidophilic eubacteria 431

T. Araki, T. Sugimoto, and T. Morishita: Purification and characterization of carboxymethylcellulase from *Alcaligenes* sp. CM-746 439

Number 6, December 1996

F. Mayer, M. H. Madkour, U. Pieper-Fürst, R. Wieczorek, M. Liebergesell, and A. Steinbüchel: Electron microscopic observations on the macromolecular organization of the boundary layer of bacterial PHA inclusion bodies 445

A. Hiraishi, Y. Ueda, J. Ishihara, and T. Mori: Comparative lipoquinone analysis of influent sewage and activated sludge by high-performance liquid chromatography and photodiode array detection 457

W. I. Golubev, R. Ikeda, T. Shinoda, and T. Nakase: Mycocinogeny in the genus *Bullera*: Anti-tremellaceous yeast activity of killer toxin produced by *Bullera hannae* 471

K.-S. Shin, S.-D. Hong, and K. S. Bae: The significance of ITS-RELPs and coenzyme Q system in determining taxonomic relationships among *Candida* species 481
T. Koga and K. Takumi: Inducible resistance to zinc and the effect of this ion on the composition of outer membrane proteins in *Vibrio parahaemolyticus* 493
S.-O. Suh, M. Takashima, M. Hamamoto, and T. Nakase: Molecular phylogeny of the ballistoconidium-forming anamorphic yeast genus *Bullera* and related taxa based on small subunit ribosomal DNA sequences 501

Short Communications

M. Asayama, A. Yamada, K. Tanaka, H. Takahashi, and M. Shirai: A new set of PCR primers for specific detection of the gene encoding the principal sigma factor in cyanobacteria 511
Taing ok and F. Hashinaga: Detection and production of extracellular collagenolytic enzyme from *Zygosaccharomyces rouxii* 517
S. Ogawa, A. Ando, and Y. Nagata: Structure of genomic DNA encoding a fucose-specific lectin of Ascomycete mushroom, *Aleuria aurantia* 525
